15. Review of Performance

For the Quarter

The Group registered revenue of RM82.2 million for the current quarter as compared with RM92.2 million reported in the corresponding quarter last year. Sales on local and oversea market remained slow due to competitive pressure and economic sluggishness.

Consequently, the Group posted lower profit before tax of RM1.1 million compared to RM1.9 million in the corresponding quarter last year.

For the 9 months ended

As for the 9 months period ended 28 February 2017, the Group recorded lower revenue of RM251.8 million as compared to RM282.6 million. The contraction in revenue was attributed to sluggish overseas demand.

Against the challenging macro environment, more advertising and promotion expenses were incurred as part of the efforts to improve existing sales and market share. Thus, the Group profit before tax for the period ended 28 February 2017 was RM3.1 million compared to RM7.1 million in corresponding period last year.

16. Variation of results Against Preceding Quarter

	Current Quarter 28.02.2017	Immediate Preceding Quarter 30.11.2016	Variance Increased/ (decreased)

Revenue for the third quarter is higher by 1.2% or RM1 million to RM82.2 million from RM81.2 million in the immediate preceding quarter. Revenues increased due to local demand is higher in the festive month for December till February for Christmas and Chinese New Year celebration.

The Group recorded a slightly higher profit before tax of RM1.1 million in the third quarter as compared to profit before tax of RM0.6 million in preceding quarter.

17. Commentary on Prospect

As the uncertain economic outlook continued to impact consumer purchasing power, the Group's prospect for the coming year is expected to be more challenging. Cost rationalisation, built around operational efficiency and optimisation of resources, is ongoing as the Board strives to reinforce the Group's business strengths and capabilities.

At the same time, the Group will continue to explore new markets and growth opportunities in emerging markets abroad.

On 28 November 2016, the Group successfully secured the distributorship for MYTV set-top-box (decoder) in anticipation of digitalisation of the Malaysian television broadcasting in 2018. By then, all households in Malaysia will require the decoders to receive television signals for continued access to Free-to-Air TV channels. This distributorship is anticipated to contribute to Group revenue in the short-to-medium term.

Given the Group's extensive experience in the industry, the Board believes that the Group will be able to manage the challenges ahead and remain competitive in the foreseeable future.
